Assignment / Project Title:

AI Use Declaration

I, the undersigned learner, declare that I used Artificial Intelligence (AI) tools responsibly and transparently in completing this task. I understand that AI can support learning, but it cannot replace original thought or effort.

AI Project Level	Description of AI Use	Tick (✓)
Level 1 – No AI	The project was completed entirely without AI tools. All ideas, writing, images, designs, and code are original and produced under controlled conditions.	<input type="checkbox"/>
Level 2 – AI for Planning	AI was used only for planning activities such as brainstorming, outlining, mind-mapping, prompt drafting, or framing research questions. No AI-generated content appears in the final submission.	<input type="checkbox"/>
Level 3 – AI Collaboration	AI provided drafting support (e.g., suggestions, rephrasing, prototypes). The learner edited, refined, and finalised the work. Full disclosure of AI use is required.	<input type="checkbox"/>
Level 4 – Full AI Allowed	AI was used throughout the project for research checking, generating text or visuals, coding, or production tasks. The learner verified accuracy and cited all AI use.	<input type="checkbox"/>
Level 5 – AI Exploration	The learner explored advanced or emerging AI tools, tested features, compared outputs, or prototyped solutions. A reflective component on ethics, impact, and responsible use is included.	<input type="checkbox"/>

Details of AI Use

AI Tool(s) Used:

Purpose of Use:

Prompts / Instructions Used:

How AI Output Was Used:

Extent of AI Contribution:

Minimal (less than 10%) Moderate (10–40%) Significant (40–70%) Major (over 70%)

Learner Reflection

In my own words, I explain how AI supported my learning and what skills or understanding I developed through this process:

Learner Declaration

I confirm that:

- The work submitted is my own.
- All AI tools and contributions are clearly acknowledged.
- I understand the AI levels as stated in the Learner Policy and have selected the correct level.
- Misrepresentation or non-disclosure of AI use may result in academic consequences.
